SUMMARY

Computer Science graduate with knowledge of SQL, Python, Excel, MySQL, and data management. Eager to contribute as an Apprentice at Tata Steel by applying analytical, technical, and problem-solving skills while learning industrial systems and processes.

TECHNICAL SKILLS

Programming Languages and Libraries: - Python, SQL, Pandas, NumPy

Tools and Software: - Jupyter Notebook, Power Query, MySQL, MS Excel, Power BI, Git & GitHub, Vs Code

Data Analysis: - Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, KPI Analysis, Dashboarding

Soft Skills: - Analytical Thinking, Problem Solving, Communication, Time Management, and Adaptability.

PROJECTS

Customer Shopping Trends Analysis - End-to-End Data Analytics Project

Nov 2025 - Dec 2025

Python, SQL, Excel, and Power BI

- Built an end-to-end data analytics solution to analyze customer shopping trends and retail business performance
- Cleaned, transformed, and analyzed retail data using Python and SQL to identify customer segments, purchasing patterns, and key business metrics.
- Developed interactive Power BI dashboards to visualize KPIs, sales trends, customer behavior, and product performance.

Employee Attrition & Workforce Analytics

Mar 2026

SQL, Power BI

- Analyzed employee attrition and workforce data to identify retention challenges and workforce trends.
- Performed data cleaning, transformation, and validation using SQL and Power Query to ensure data quality and consistency.
- Created advanced SQL queries using JOINS, CTEs, Window Functions, and aggregate functions to analyze attrition, salary distribution, department performance, and employee demographics.
- Built interactive Power BI dashboards to analyze workforce KPIs, attrition trends, and employee demographics, providing insights for employee retention and workforce planning.

EDUCATION

B. Tech, Computer Science and Engineering -

Oct 2022 - April 2026

Centurion University of Technology and Management, Bhubaneswar | CGPA: 8.4/10

CERTIFICATIONS

- TCS ION Career Edge – Young Professional | *May 2025*
- Deloitte Technology Job Simulation – Forage | *Oct 2025*

ADDITIONAL HIGHLIGHTS

- Built end-to-end data analytics projects using Python, SQL, Excel, and Power BI.
- Strong foundation in SQL, Python, MySQL, MS Excel, and problem solving.
- Quick learner with the ability to adapt to new tools, technologies, and industrial processes.
